THE WINDOWLINE WAY

Our Windowline business model is built around managing complex strata projects both small and large scale, interacting with stakeholders and providing onsite management.

All our systems and processes begin with the end in mind and are based on a predicated outcome to ensure jobs flow smoothly and efficiently through the system.

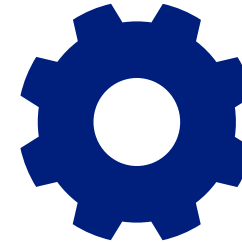

Coupling this with our team of specialists' enviable reputation for providing personal service on time, everytime, we have come to refer to this as our "Windowline Way" super power.

We believe it is these reasons we have been the strata industry window and door replacement specialists of choice for over 34 years.

TESTIMONIALS

“The value of Windowline’s management decision to provide a long-term commitment to the sector should not be underestimated. I have had the pleasure of working with Gary and the team at Windowline over my entire career in strata. We know that every time that a client selects Windowline that the works will be carried out professionally and that every effort will be made to ensure minimise disruption to residents. Furthermore if there is ever the need they return without fuss which only makes both the strata manager and Windowline look great.”

David Ferguson
FSCA Managing Director - Strata Plus
Former SCA NSW President

“Windowline has been a supplier to Bright & Duggan for decades and has always been reliable, supportive and credible in their works for our schemes. Undertaking significant works to strata building requires a huge degree of coordination, customer management and assisting the strata manager and owners via effective communication. Windowline excels in this regard and I recommend them. Please do not hesitate to contact me directly on 02 9902 7167, should you require any further information.”

Chris Duggan
Managing Director - Bright & Duggan Group
President - Strata Community Association NSW
